

NEW GLADIATOR 961 SPEED

LENGTH 29.2 m | BEAM 6.3 m | 4 CABINS | YEAR 0

Canados

Gladiator 961 Speed

This is the largest Gladiator model in the range. Constructed at the shipyard in Rome the 29-meter yacht features the now expected stunning exterior design, while her modern, fresh, and elegant interior is designed by Cristiano Gatto. Hull 1, built with the triple engine configuration is based in the Gulf of Saint-Tropez during European summer time and the Bahamas during the winter months. This impressive vessel can reach speeds of 50 knots and is available with three different power packages.

Down below, the boat is offered either with three cabins and a home cinema or four cabins. Her hull is made of E-Glass and Vinylester resin lamination using infusion process, deck and superstructure are made of vacuum bagged carbon fibre, and all floors are structural and made of vacuum bagged E-Glass. All interior furniture, produced in house, are made of light-weight cored material such as high-density polyurethane foam or composite and aluminium honeycomb.
